Issue No. 32 - March 2019

HIV in Europe is now EuroTEST

At the recent [HepHIV2019 Conference](#) in Bucharest, Romania, it was announced that the **HIV in Europe initiative would be renamed to EuroTEST**. The aim of the renaming was to broaden the disease scope of the initiative to address hepatitis, HIV, sexually transmitted infections (STIs) and tuberculosis (TB). EuroTEST aims to utilise integrated strategies to help increase early detection and earlier entry into treatment leading to better health outcomes and preventing the risk of further transmission.

Since the initiative's beginning, HIV in Europe has built a European platform where representatives from civil society, policy institutions, health care and European public health institutions work toward influencing policy, knowledge sharing and building the evidence-base to support earlier diagnosis and care of HIV and viral hepatitis across Europe. EuroTEST will continue to do so with the additional focus on STIs and TB.

You can read the press release published to commemorate the opening day of the HepHIV 2019 Conference and the renaming announcement on our website [here](#).

For all future communication with EuroTEST, please email eurotest.rigshospitalet@regionh.dk

HepHIV 2019 Conference

The 2019 HepHIV Conference was 28-30 January in Bucharest, Romania. Over 240 participants from 37 countries attended the conference to highlight the European response to HIV, viral hepatitis and other infectious diseases including sexually transmitted infections (STIs) and tuberculosis (TB). The conference programme focused on earlier testing emphasised by the 2019 theme, "Challenges of Timely and Integrated Testing and Care."

You can check out the scientific programme, presentations and photos on our website [here](#).

You can also read the media report on the conference prepared by [Sănătatea Press Group here](#).

Stay connected with us

Since HIV in Europe is now EuroTEST, we kindly ask you to update our contact information so that we can stay connected.
