

## **Lisbon Fast Track City: HCV testing and treatment in the community – learning from harm reduction and people who use drugs**

**HepHIV 2021 conference side-meeting**

**Time/date:** 5 May 2021, 11:30-13:00 CET

**Participants:** Open to all conference participants – no pre-registration needed

### **Meeting background and objectives**

During this session, the experience and results of five different HCV treatment outreach interventions in three Fast-Track Cities – Lisbon, Oporto and Paris – will be presented and discussed. The audience will be invited to actively engage in collectively reflecting on the importance of building on learnings from harm reduction and involving peers and how HCV treatment outreach interventions can be further leveraged to achieve elimination of Hepatitis C by 2030.

### **Agenda**

- 5' initial intervention by each participant
- Discussion (open to the audience participation)

### **Participants:**

- **Hugo Faria** Ares do Pinhal/Mobile Outreach Team
- **Luís Mendão** GAT- IN-Mouraria/ Harm Reduction Centre
