Working together for integrated testing and earlier care

Addressing Hepatitis, HIV, STIs and TB

EuroTEST survey on testing consent requirements

NEW DEADLINE: 30 November 2023

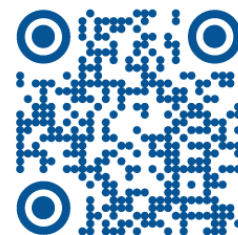

If **you** provide testing for **HIV** and/or **viral hepatitis B and C** in a clinical or community setting OR if you are responsible for these disease areas in a public health setting, then please:

take this short EuroTEST survey on consent requirements for blood borne virus testing

The survey includes questions on both policy and practice and will serve as the basis for developing a recommended testing consent procedure, with possible variation across setting.

New deadline to respond: 30 November 2023

Survey link and QRcode ►
<https://redcap.link/ay5vhu9e>

If YOU provide testing for HIV, HBV and/or HCV, or coordinate testing programmes in a public health setting, then please take this short EuroTEST survey on testing consent requirements for HIV and hepatitis testing.

The survey will map differences between consent requirements for HIV and viral hepatitis testing in the WHO European Region, covering both policy and practice, and will serve as

the basis for developing a recommended testing consent procedure, with possible variation across setting.

Please feel free to disseminate the survey link to colleagues providing or coordinating testing in a different setting than your own (community, clinical or public health)..

Take the survey!
